## Summary

Full Stack Web Developer and graduate of the University of Kansas Coding Boot-Camp. Confident in HTML, Bootstrap, jQuery, MySQL, and React. Experience with using version control github and heroku to deploy applications. Passionate about using education to make an impact and encouraging others to pursue life-changing opportunities!

## Technical Skills

**Frameworks:** Bootstrap, jQuery, Node, Express, React

**Languages:** HTML, CSS, Javascript, ES6, MySQL, Sequelize, Jest, MongoDB,

## Projects

[Grace Fabrics](#) | [GH](#) | **Back-End**

**Tech Used:** React, Express, Node, Sequelize, MySQL, MaterialUI, Axios, Passport, Bcrypt, EmailJS, Local-Storage

- For this project we partnered with a local business to provide them with a shop where the admin can create, delete, and update products in the online shop.
- Managed communication between client and group, particularly concerning MVP.
- Used Sequelize to create models to store product information and deployed application to Heroku.

[Cocktail Coterie](#) | [GH](#) | **Front-End**

**Tech Used:** Handlebars, Express, Node, NodeFS, Sequelize, MySQL, Bootstrap, jQuery, Axios, Passport, Bcrypt

- This app allows the user to organize an online cocktail party and send their friends an invite containing the cocktail ingredient list, and personal zoom link.
- Used handlebars to render information from the database on the frontend.
- Used NodeFS to take user inputs and create a new html page, with an original url, to be used as an invitation link.

[Tracking Employees](#) | [GH](#) | **Command-Line Application**

**Tech Used:** Node, Inquirer, MySQL, Node-Util

- This command line application fulfills all CRUD operations by allowing the user to create and delete employees, roles, and departments; As well as view employees by department, role, or manager and update said role.
- Used async await promise functionality to map all current rows from a table before the user is presented with the inquirer prompt.
- Successfully used foreign keys and inner join to associate employees with their designated department.

## Experience

### Junior Web Developer

Cerbanimo

2020 - Current
